

## ABOUT

Pike students have the opportunity to start their journey toward successful careers through a state-of-the-art Pike Career & STEM Center located at Pike High School. Programs that are offered include Cosmetology & Barbering, Culinary Arts, Criminal Justice, Emergency Medical Services, Heating & Air Conditioning (HVAC) and Health Sciences. Students will have the opportunity to receive college dual credit and acquire skills from experienced faculty. Students may also earn up to three high school credits per semester in selected courses that will apply towards their high school diploma. Work-based experiences apply to most programs.

For more information, please contact:
